### GRADE 3 & 4

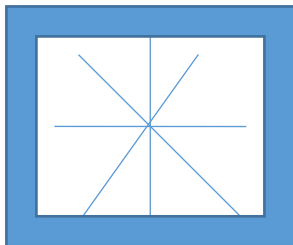

#### Week 3

Last week you had some practice with all types of lines and you practiced curvy, straight and horizontal lines to create 3D spheres.

This week we will explore the element of 'line' to the next level. You will do optical illusion by creating curvy and diagonal line.

This is art therapy for you and you will ENJOY!

draw a thin curved line with your black marker

**Step 1. Watch the video to get ideas:**

See the video on how you can use lines to create an optical illusion (where your eyes play tricks on you)

<https://www.youtube.com/watch?v=zypOlFzdyFE>

Optical illusion Art tutorial

**Step 1.** Draw a large square on your paper and a draw 8 intersecting lines, in the centre of the paper as shown above

**Step 2.** Begin to draw curved lines in between the X lines.

**Step 3.** Watch your work develop as you continue to put curved lined from the smallest to the biggest. When finished watch your optical illusion picture.
