basic play dough easy recipe – flour, salt and water food colouring (optional)

*If you want your basic play dough to get hard, then you may want to let it dry for 24 – 36 hours or you can put it in the slow oven for 2 hours. Before baking make a hole so you can put a ribbon or string through cut out hearts, circles and other shapes, to hang in your garden as a wind chime.

You can store your play dough in plastic zip lock bags for four weeks in the fridge.
