Learning Intention: You will recycle an egg carton to create a 3D sculpture of your face.

You will need **markers** or coloured **cut up paper** to make your hair. You can get help from your mum and dad or cut the egg carton with **scissors** to create **eyes nose and mouth**. They will need to be stuck on the carton with glue or any **craft glue**.

Look at this picture and see if you can copy this: **BE CREATIVE!**

Watch this video to get the idea.
