The Hubble Telescope is revealing many secrets of the universe.

Read the passage and then answer the questions that follow.

Named after the astronomer Edwin Hubble (1889-1953) the Hubble Space Telescope is an observatory in orbit around Earth. It has revolutionized astronomy by providing deep and clear views of the Universe, ranging from our own solar system to extremely remote galaxies formed not long after the Big Bang 13.7 billion years ago.

Hubble orbits far above the distorting effects of the Earth's atmosphere and returns data of unique scientific value. Though not large by ground-based standards Hubble achieves heroically in space. The farthest objects it has seen are galaxies well over 12 billion light years away.

Hubble, with its 2.4m diameter primary (main) mirror, was the first optical telescope to provide convincing proof of a Black Hole several billion times the mass of the sun in the early 1990's.

Hubble's orbit is 575 kilometres above the Earth's surface, with one orbit taking 97 minutes.

**Questions (answer in full sentences in the Google Doc.)**

**Submit to your teacher for correction when finished.**

1. What do you think is meant by the phrase 'revolutionized astronomy'?
2. What advantage does an Earth-orbiting telescope have over a ground-based telescope?
3. Hubble achieves heroically. What does this mean?
4. The Hubble telescope is not as large as many Earth-based telescopes. Why do you think this might be?
5. Someone has said that Edwin Hubble is remembered in the best way possible. What do you think they meant?

## Unit 14

Focus: Prepositional phrases

# Bernhard, <sup>otherwise known as</sup> Barney, gets ready for school

### Mum gets Bernhard ready for school...

"Scrub your hands, brush your teeth and neatly comb your hair;  
Now let me rub some sunscreen on your skin so fair.  
Fine clean underwear and a singlet for the cold,  
A hanky for your pocket - I'll give it one more fold.  
Shined up black shoes and socks pulled high,  
A smartly-ironed cotton shirt - do you need a tie?  
My, those creases in your blue jeans do look neat.  
Um! A woolly cap or sunhat to shield you from the heat?  
I've packed you up a healthy lunch of nuts and fruit,  
I wonder if I should have made you wear your suit?  
Have you got the 'holll snaps' for tell and show?  
My, don't you look a treat - so off you go."

### Bernhard, otherwise known as Barney, gets himself ready for school...

Marbles in my alley bag, trade cards in my pocket,  
Fully-loaded spud gun (but I better not cock it),  
Yoyo on my finger and fake tatt on my hand,  
(Would have got a real one but at school they're banned).  
Footy underneath my arm and skateboard under feet,  
Cicada on my stained shirt that says 'GO HEAT'.  
Got my new power game that's called 'Killer Hawk',  
And my Dirk Danger Death Dagger for morning talk.  
"Have you got some loose change, Mum, for me to buy my lunch?  
I'll just get a pie with sauce and chips to munch."  
I'll wear my shorts backwards - 'cause that's really cool.  
Whoa! It's nearly 10 past 9.  
I'd better get to school!

A **phrase** is a group of words without a verb or action word. A phrase that starts with a preposition is called a **prepositional phrase**.

For example: *in the park at school with a red nose*

Some prepositional phrases add details about a noun or pronoun.

For example: *The man **with long hair** plays in a rock band.*

The phrase *with long hair* tells us more about the man.

1 Read the page opposite, then underline the **prepositional phrases** in each sentence.

(Each phrase begins with a preposition.)

- a The marbles in this alley bag are mine.
- b The footy underneath my arm is old.
- c The cicada on my stained shirt is cool.
- d I am eating a pie with sauce.
- e The skateboard under his feet is cracked.
- f The yoyo on my finger is yellow.

Some **prepositional phrases** add details about the action in a sentence.

They tell us **how**, **when**, **where** and **why** the action in the sentence is performed.

For example:

- (i) *The children clapped **with enthusiasm**.*

The phrase *with enthusiasm* tells us **how** the children clapped.

- (ii) ***By this afternoon** the rain will clear.*

The phrase *by this afternoon* tells us **when** the rain will clear.

- (iii) *Let me rub sunscreen **on your skin**.*

The phrase *on your skin* tells us **where** the sunscreen is rubbed.

- (iv) ***Because of the bad weather** the sports were cancelled.*

The phrase *because of the bad weather* tells us **why** the sports were cancelled.

Sometimes you can improve your sentences by changing the position of **phrases**. Occasionally, try using a phrase to begin your sentence.

2 Underline the **prepositional phrases** in each sentence and write whether they are telling how, when, where or why.

For example: *They are banned **at school**.* *at school* (where)

- a Barney drew a tattoo on his hand. \_\_\_\_\_
- b He arrived after the bell had rung. \_\_\_\_\_
- c Bernhard wore a singlet for the cold. \_\_\_\_\_
- d The creases were in his blue jeans. \_\_\_\_\_
- e During the morning, he gave a talk on Dirk Danger. \_\_\_\_\_
- f Mr Craig answered in an angry voice. \_\_\_\_\_
- g With a loud bang, Barney's spud gun exploded. \_\_\_\_\_
- h "I'm late, I'd better run to school," said Barney. \_\_\_\_\_
- i For my lunch, I'd like a pie. \_\_\_\_\_

## Star challenge

On a separate piece of paper, write sentences of your own that begin with these **prepositional phrases**.

- a After midnight ...
- b Under the bridge ...
- c In the centre of the circle ...
- d Across the sky ...
- e With a huge sigh ...
- f On his head ...

# Bushfires in Australia - 1

Australia, a continent with a hot, dry climate, is prone to drought and bushfires. Bushfires occur frequently and are often severe. Firefighters respond to approximately 54 000 fires each summer.

A bushfire can be defined as an uncontrollable burn that can destroy vast areas of forest, scrub or grassland. It can be caused by natural means (lightning strikes or spot fires) or human intervention (burning off, arson or sparks from power lines). About 35% of fires are started accidentally, 13% are deliberately lit and 37% are suspicious.

Australian bushfire seasons

Bushfire seasons occur at different times of the year across Australia (refer to map). Summer, however, is the most prevalent time because of the hot, dry weather. The frequency and severity of bushfires varies greatly across Australia, depending on when extreme fire weather occurs.

The Northern Territory and northern parts of Western Australia and Queensland experience the largest total area burnt by bushfires. Bushfires close to cities cause the highest loss of life and damage to the local economy. Some scientists suggest that bushfires are increasing in severity and frequency as a result of climate change.

Bushfires need fuel, oxygen and heat to burn. Hot, dry winds provide oxygen for combustion and blow flames onto dry leaves, bark or dense undergrowth, which act as fuel. Eucalyptus trees, which contain large quantities of oil, spread fire quickly and often explode at high temperatures, spreading embers. Burning embers fly through the air, igniting other areas as **spot fires** ahead of the main outbreak. Sometimes fire breaks out in the canopy of trees, and, if they are close together, fire spreads through the upper levels as a **crown fire**. These are extremely difficult to extinguish.

Bushfires change the environment. Some changes are beneficial; others are not. Most native vegetation has adapted to fire due to fire-stick burning by Indigenous Australians. Some plants need fire to regenerate. Eucalyptus trees quickly regenerate after bushfires. Banksias need fire to open their seed capsules. Bushfires clear out unwanted vegetation on the floor of forests so there is less competition from plants. Ash acts as a fertiliser to help plants regenerate quickly. Kangaroos, emus and other native animals graze on regenerated grasslands. Bushfires, however, destroy native vegetation, buildings and homes, livestock and native animals, and cause loss of human life. Back-burning too often to reduce bushfire hazards can affect the biodiversity of plant and animal life in a region.

Fire and emergency services, and land management groups in all states, are responsible for preventing and managing bushfires.

## Bushfires in Australia - 2

1. In your own words, write a definition of a bushfire.

---

2. Approximately how many fires occur each summer? \_\_\_\_\_

3. On the map, draw and use patterns to show the regions that experience the most severe bushfires each year. (The information in paragraph 4 will give you specific details.)

4. What percentage of bushfires start accidentally?

---

5. Name two natural causes and three human causes of bushfires.

- natural \_\_\_\_\_
- human \_\_\_\_\_

6. True or false. Bushfires occur only during summer. True False

7. The severity of a bushfire can be determined by:

- \_\_\_\_\_
- \_\_\_\_\_

8. \_\_\_\_\_ is suggested by scientists as a possible reason for the increase in frequency and severity of bushfires.

9. Name and explain two different types of bushfires.

- \_\_\_\_\_
- \_\_\_\_\_

10. Copy this table onto a sheet of paper and complete the information about bushfires.

Beneficial changes	Detrimental changes

## BECOMING FAMILIAR WITH - THE PARABLE OF THE GOOD SAMARITAN

1. Re-watch the part of the video in which Pope Francis retells The Good Samaritan.

**What was his interpretation of the text?**

2. Use the Kids Bible to read the parable

Luke 10: 25-37

[https://us-en.superbook.cbn.com/sb\\_bible/](https://us-en.superbook.cbn.com/sb_bible/)

3. WATCH

<https://www.youtube.com/watch?v=osfQg4yKtq8>

This Catholic Social Teaching Principle of Stewardship also includes care of Each other. Pope Francis emphasised this in his recent special 'letter' (encyclical), *Laudato Si': On the Care of our Common Home*.

**Pope Francis uses the parable of the Good Samaritan to teach us and model, how we should care for each other.**

As Pope Francis has said, "We need to "hear both the cry of the earth and the cry of the poor."

Think about how we can care for and be kind to others during our lives at home, school and in the community.

## **YOUR TASK:**

Use 3 **If ..... then .....** statements to show how you can show care and kindness to others and God's Creation. Illustrate your statements using pictures or symbols from the internet.

## **HOME**

If I make a mess in my bedroom playing with my toys, then I should spend time cleaning up.

- 1.
- 2.
- 3.

## **SCHOOL**

If I upset my friend calling them names, then I should apologise and make sure I don't do it again.

- 1.
- 2.
- 3.

## **COMMUNITY**

If I go to the park and see rubbish on the ground, then I can pick it up and put it in the rubbish bin.

**GRADE 5 & 6**

**Visual Arts Term 3 Week 8**

## Learning Intentions:

This week you are going to learn how to make a 3D optical space oval, like a satellite or a flying object floating in Space.

We will feel calm as we listen to the space music and draw and practice shading. I hope you feel inspired to achieve your mission today. Enjoy!

[https://www.youtube.com/watch?v=nQDJb\\_wgJU8](https://www.youtube.com/watch?v=nQDJb_wgJU8)

Here's a picture of the end product or how it will look like, although, the learning is in the process we follow.

**NOW IT'S YOUR TURN TO DRAW!**

You will need a white piece of paper, a soft lead pencil for shading, a rubber, ruler (and a cotton bud for shading if you are at home)

## Music Term 3 Week 8

Gr. 3-6

### THE ORCHESTRA

**Draw yourself as the conductor in the middle. Using the following instructions, write or draw the instruments in their right place. Colour the sections (families).**

STRINGS - BLUE

PERCUSSION - RED

WOODWIND - GREEN

BRASS - YELLOW

The **percussion instruments** and the **timpani(kettle drum)** sit at the very back of the orchestra. The **harp** sits in the smallest space and the **1st violins** sit at the front next to the harp. The **2nd violins** sit next to the first. The **violas** are directly in front of you. **Cellos** are next to the violas. **Double basses** are behind the cellos.

The **flutes** are behind the violas to the left. The **oboes** sit next to the flutes and are directly in front of the **bassoons**. The **clarinets** sit next to the bassoons and in front of the horns. The **trombones** and **tuba** sit a row behind the bassoons to the right and the **trumpets** sit next to them.

Now listen to this piece of music **conducted by Alondra de la Parra** highlighting all the sections of the orchestra. It goes for just over 10 minutes. Enjoy all the wonderful sounds together and her very expressive conducting!

## Term 3 Week 8 Grade 3 & 6 Physical Education Remote Learning

Hello 3-6 students, parents and carers,

Here are WEEK 8 activities, students can access the websites using a device. Some activities require sports equipment, use something from around the house that would do the same job as the sports equipment. You need a small space to do most of these activities, if you have outdoor space then use that.

### STUDENTS:

If you don't have access to a digital device or internet, go for a bike ride, walk, little jog, kick to kick with siblings or adults (if weather permits).

No Google Meets in week 8, but please get outside and get active. (If weather permits). Remember to **HAND IN** your work by posting a picture on Google Classroom and answering the two questions for the main activity. (Class Dojo Grade 3 students).

Students and Parents, please don't hesitate to contact me for any help or support on:
